Her programme was not one making any severe demand upon her larger powers of interpretation, but calling for all the fictions of the planist's art and for a fine appreciation of external beauty.

It was a restful and agreeable recital. There are many ways of playing the plano, ranging from the grand style, trumpeted heroically by the intense Huneker in his "Unicorns," to the minor of the early Joseffy was the supreme exponent. Mme. Ernestine Schumann-Heink gave concert yesterday afternoon in Carnegie Hall. The audience packed the auditorium, including seats placed on the stage. The concert turned out to be in large part a patriotic demonstration. The stage was hung with flags; the singer on her first entrance threw a ciss to some sailors, seated on the stage again, following an encore at the close of the first group in the list, she stood at the stage entrance and waived her hand to a body of sailors as amid great applause they marched across the front

of the platform, each man carrying his own chair, and took their seats. After the programme Mme. Schumann Heink sang as an encore one verse of "America" and then she followed this with two short speeches in somewhat broken English. In the first one she said. "This concert is not for my pocket-book, it is not for me, it is for our soldiers," while in the second she made an impassioned plea that cheering words and said of every possible kind be seen Funeral from his late residence on Sunday, November 4, at 3 o'clock. Old Master's "Entombment" Shown Here-Sculptures by Clodion.

A new etcher who is reasonably sure to meet with an American success is Albany E. Howarth, and he makes his bow this week at the Kraushaar Galleries.

Like most of the new etchers who command the serious attention of our amateurs, he is English : for there seems to be a new etcher back of every bush in England, just as there are new. poets around every street corner in Dublin. Like many of the other new etchers, and like a few of the new Irish poets, Mr. Howarth confesses himself self taught, which is not at all a bad thing in etching, where the grammar of the art is not

Happy moments she had yesterday in Debussy's "La Soiree dans Grenande and Liszt's "Walderauchen" and "Gnomenreigen" (she had the titles in English on the programme). The great F minor fantasic of Chopin seemed to appeal to her through its exquisite melodic curves and its finely spun web of harmonies, but she did not find, as Hupeker did, a sustained lever of grand passion, free from delirium.

Miss Novaes is not at present in the slightest danger of becoming delirious. She is a lovely flower of music, delicate, elegant, ravishing in all her musical ways, but not yet ready to probe men's souls. Her gifts are exceptional; her smastery of the keyboard of the rarest type. She has fingers that caress irrestlype. The name of Clodion is one to con-jure with, not alone with artists, but with architects, for the work of the great French sculptor is not alone interesting as sculpture, but it adapts itself always to the rooms and buildings for which it was designed. It is in

It is possible that the great vogue of the French architectural tradition in this country, which has resulted in making most of the interiors of our new great residences look as though the buildings were located in the Faubourg of Miss Woodford, will act as matron of Miss Woodford, will be with the new great residences look as though the buildings were located in the Paubourg St. Germain, has also been responsible

and back over Dr. Fields's farm to check on the Bray farm at Nut Swamp school-house.

After a short rest the hounds were cast in Major Fields's meadows and over the Kelly farm to the Holmdel road, where a second check was made. Some nice jumps featured this check.

The riders were then taken to Theron McCampbell's farm, where they circled the meadowland and were taken at a lively clip over the John Long farms and John Dowlen meadows and on to Morrisville Corner, where all finished well up.
